## Fire Department

### (EXPLANATION OF MARLOW-STODDARD FOREST

**FIRE EXPENSE:** Included in the payments of the Fire Department which follow, are bills presented by the towns and fire wardens for the time of their men and the use of fire pumpers in the big Marlow-Stoddard forest fire. Due to the many towns involved and the army of men engaged in fighting the fire, we have not attempted to give a report of payments to individuals. It would necessitate printing a Town Report of voluminous size and would serve no worthwhile purpose because payments were made only on payrolls certified by town wardens or town treasurers covering the personel and time of each in fighting the fire. These payrolls were checked and approved by District Fire Chief Baker, State Forester Foster and the State Treasurer.

Total paid out by Town of Marlow, \$10,618.13. An act of the Legislature provided for refund of cost in excess of  $\frac{1}{2}$  of one percent of the assessed valuation of the Town based on 1941 inventory, which would have made the Town's share, \$1,421.31. However, due to the fact that certain towns made payments at a rate higher than the state approved rate, it was necessary for Marlow to pay the added sum of \$327.55, or a total of \$1,748.86. To save space and cost of printing, all bills connected with the Marlow-Stoddard forest fire are designated as M-SFF.)

## REPORT OF SUPERINTENDENT OF SCHOOLS

---

To the School Board and Citizens of Marlow :

I hereby submit my annual report as Superintendent of schools :

### ORGANIZATION AND ENROLLMENT

In the assignment of preference ratings, schools have been classified as a necessary productive agency. This recognition is given to facilitate the process of procuring equipment and supplies which are necessary for maintenance. Thus is emphasized the importance which education has in the program for defense of the principles of democracy.

The present emergency places on our schools a two-fold responsibility ; namely :—

1. The general education and training of pupils to produce intelligent and helpful members of American society.
2. The development of attitudes toward democracy and the attainment of the basic knowledge and skills necessary for the realization of our immediate objectives.

The democratic pattern for education provides that mental and emotional attitudes shall be well balanced and shaped by intellectual understanding. The responsibility of our schools should be extended to serve adults as well as the younger pupils. It is recognized that the public schools must assume some responsibility for the thought and well being of all people capable of profiting from instruction—either academic or practical.

The democratic principles of freedom of thought and action may be safely entrusted to a generation of people who are prepared in our schools for this responsibility.

Care must be exercised that the long range program of our schools shall not suffer from the pressure of other important objectives demanding immediate attention and support. Competition from expanded industrial defense preparations has already caused a scarcity of qualified teachers.

The larger towns and cities will undoubtedly seek to maintain their school standards by looking to the districts which are on a low salary schedule now for candidates to fill their vacancies. Other school costs are advancing and are bound to increase still more. Some of this increase may be offset by practicing measures of strict economy when consistent with efficiency. Although certain temporary adjustments in the use of instructional materials will be compelled by the present emergency, no retrenchment in our general educational program should be made as a result of misguidance in measures designed to effect economy. Your children are entitled to the best instruction that modern education can provide within the range of local facilities and reasonable financial support. The welfare of each local community and the future of our country depend upon the attitudes developed in well organized and supported public schools.

The new edition of the Elson-Gray reading system has been adopted as the basal reading program for the three primary grades. These books are in use this year in Grade 1. It is hoped that new books may be purchased each year until all three grades are equipped with this modern program. The system is complete with reading readiness material, pre-primers, primers, graded readers, work books, and supplementary devices.

#### ENROLLMENT, JANUARY 15, 1942

Grade	1	2	3	4	5	6	7	8	Total
Primary room	5	11	11	5					32
Grammar room,				4	4	3	5	4	20
	—	—	—	—	—	—	—	—	—
Total,	5	11	11	9	4	3	5	4	52

Twelve new pupils have entered since the opening of school in the Fall. A large number of these new pupils were enrolled in the primary grades. In order to equalize the distribution of pupils in the two rooms, a division of the pupils in grade four was made on the basis of age. At present the primary room has four grades with thirty-two pupils and the upper grade room has twenty pupils enrolled in five grades.

The possibility of danger threatening the lives of civilian population in the modern type of warfare has placed a new responsibility on the schools. Each teacher has been informed of the general principles governing the organization of schools preparatory to an air raid attack. Plans have been outlined in each school to take care of the pupils, either in the school building or in the immediate vicinity of the school. All plans providing for an air raid emergency refuge follow the recommendations of the State Defense Council and will have the approval of the superintendent and local air raid warden.

A full day institute for the rural school teachers of this area was held at Westmoreland. On November 7, nineteen school superintendents from the central and southwestern area of the state met at the Vilas school at Alstead for an all day conference.

### HEALTH

36 pupils were inspected.

1 pupil showed defective vision—uncorrected.

24 pupils were in need of dental care.

8 pupils were underweight.

8 pupils were recommended to have throat and nose examination by a physician.

A dental clinic was held October 7th and 8th, 1941 with work done as follows:

Number of pupils treated,	15
Total number of cleanings,	13
Total number of extractions,	6
Total number of amalgam fillings,	16
Total number of porcelain fillings,	12
3 tonsil cases were treated at clinics.	
2 pupils had dental care by their own dentist.	

### BUILDING AND EQUIPMENT

New blackboard sections were installed in both rooms. Shelves for books and scholars' supplies were built in both rooms. A play-ground equipment cupboard was built in the grammar room. The walls of the grammar room were painted. The electric light bulbs were replaced with 200 watt bulbs. A new eaves spout was installed over the entrances.

## STATISTICAL REPORT 1940-1941

Total registration,	37
Average membership,	34.51
Percentage of attendance,	92.7
Cases of tardiness,	74
Visits by superintendent,	46

This report includes the statistical data covering the full year which closed June 1941. The report is made each year as a matter of record and in form to permit facility of comparison.

I wish to thank members of the School Board, teachers, parents, and pupils for their cooperation during the year.

Respectfully submitted,

CHARLES D. DALZELL,

Superintendent of Schools.

### AUDITOR'S CERTIFICATE

This is to certify that I have examined the books, vouchers, bank statements and other financial records of the treasurer of the school district of Marlow, N. H., of which the above is a true summary for the fiscal year ending June 30, 1941 and find them correct in all respects.

BAYARD HUNTLEY,  
 Auditor.
